Hamlin Schools Close This Week - 69 Graduates

This week Hamlin schools come to a close for the 1942-43 school term. Final exercises and programs will continue from Friday evening, till Monday night, when the commencement or graduation program will be held in the High school auditorium.

This year, there is perhaps more meaning in "graduation" than in former years. Many of the young fellows are already 18 years of age or will be before another term. This "commencement" is really a beginning for them. The whole big world with all of its horrors and glories stands out before all school classes this year more than ever before.

There is one consolation to all high school graduates: They are young, and the whole world is their stage. They have a chance to live and strive for things so much greater than the passing generation ever dreamed of. With all this there are just a few simple facts that they must bear in mind: We think life contains but just a few essential factors that are fundamental and worth while longing for and protecting... if one fails to remember that what he gains, whether in dollars, property or fame, it does no good, but perhaps harm, unless it contributes to his happiness and contentment, plus security. Lost opportunities create disaster when accumulated over a long period of years, hence the greatest lesson for every young graduate to learn is to act with diligence and with a long term vision of the future. This is a young person's age. Our strength as a nation lies on the shoulders of the young men and women of this age. Their responsibility is beyond measure.

Mrs. Earl Temple Died Saturday, 22nd

Funeral services were held at the First Methodist church in Hamlin, Sunday afternoon for Mrs. Earl Temple, who passed away at her farm home near Lamesa Saturday morning May 22 at 2:00 o'clock. She had been seriously ill for more than a year.

She was a daughter of the late J. F. Thurman and wife who resided many years in Hamlin. She was born at Carbon, Texas, September 19, 1895 and was 47 years, 8 months and 3 days of age. She was just a girl when the family moved to Hamlin and after her marriage to Earl Temple in July, 1919, she moved to Dawson county where they operated a nice farm and had a beautiful farm home. She is survived by her husband and two daughters, Kathryn and Jimmie Earl, two sons, Jack and Bill, and one sister, Miss Stella Thurman of Lubbock, all of whom were at her bedside when death came.

While most of Mrs. Temple's married life was spent near Lamesa, Hamlin seemed to still claim her. Maybe because of her parents, and her husband's father and sisters and other relatives who lived here and her many visits back "home". Most of the older citizens of Hamlin thought of her as the jolly, carefree happy young woman she was in her younger days, and all of her life while her health was good. Mrs. Temple continued to be called "Lella" and wherever her friends met her the most common request was "Lella, we want to hear you sing." Singing was her outstanding charm. She loved to sing and had a wonderful voice that she used with deep expression. So on most of her visits back home she was called on to render special vocal numbers in the Methodist church, of which she was a member from early girlhood. Through the long months of terrible suffering, and wasting away, she continued to sing and play the piano, even when she had to be aided to reach the instrument. Her last audible expression was in song.

The funeral was conducted by the Rev. Harrell, pastor of the Methodist church, and Rev. Henry Littleton of Anson, who is a second cousin of the deceased. Many beautiful floral arrangements were from loved ones and friends from Lamesa, Lubbock, Carbon and Hamlin people.

Interment was in Hamlin in East Cemetery, with the Barrow Company assisting the Lamesa director.

The Herald could say many, many things more, about Mrs. Temple as a young woman, as a mother, as a Christian character. We knew her perhaps as few others, not in her family knew her. She was one of four girls who once upon a time assisted the Herald in getting type set to record the weekly history of this community. It was in the trying months of 1918 that "Miss Lella" began to set type in our office. She resigned her "stick" when the days approached for her marriage in 1919. Therefore always there has remained with us a home-like feeling for her success and happiness in life. Yes, we too, join her loved ones in the deepest kind of sympathy. A great character, a loving mother and devoted companion has passed in her prime of life.

Mrs. S. D. McMahon spent several days last week in the Dallas market for new goods for her store. She indicates "the old market is not what it used to be."

Wednesday we met E. V. Lail, an aviation instructor from the A. & M. Aviation school in Lincoln, Neb. He was over to visit his brother, Mino Lail and family, while down in Texas to get his wife and little two months old daughter, Andra Von, to accompany him back to Nebraska. This young man has learned much about propellers and it is his job to teach that feature of the plane.

Mrs. W. E. Dunnam returned last Monday from Ranger where she had been at the bedside of her sister, Mrs. Griffin, who is seriously ill.

Lions, Rotarians Had Fish Fry Together

When Hamlin's two service clubs, Lions and Rotarians, get together, with their ladies and about as many more guests, there is a lot of chatter and fine fellowship. That was exactly what happened last Thursday night of last week.

It had been planned to have a joint Fish Supper on the lakeside but the committee could not get the weather to co-operate with them, even after setting a date or two and then having it "washed up" or maybe just "sprinkled down."

So to not be outdone by such a fickle thing as weather, they decided to use a vacant business building on

Central Avenue. At least here there would be no "drabbling" and no chiggers. So there the big fish were fried. There is where the ladies were placed on one side of the house and vied with the Loud Laughing Lions and the Rowdy Rattling Rotarians on the other side.

At first the "cooks" were afraid the fish would not hold out, and the Rotary-Lions picked out wee pieces and stacked up on bread (good old corn bread) pickles, potato salad, and punch, so the ladies could have more than a plenty of fish. But soon the great hot trays began to circulate along the tables and everybody had fish and more fish, with hot doughnuts (hole and all) plus some choice Irish potatoes ducked into sizzling hot grease.

The program was a trap. A prop-

oganda amateur movie show, that had for its purpose the attractiveness of hunting and fishing. This was to show the ladies what a good time their husbands have when they are let out to hunt and fish. The show was in technicolors and even after the Fish Supper one could wish for more out of the waters where Reel and Rod had traveled. Well the women seemed to enjoy everything and some where heard to wish the Lions and Rotarians would not be so stingy about having Ladies Night more.

If it would not bother three certain young Lions and one Rotarian, we would tell everyone who to call on to "cook your goose"; for they proved how it is done on the fish.

VACATION BIBLE SCHOOL

A Vacation Bible School will be conducted next week at the Methodist church. Classes will be conducted for primary, junior, and intermediate boys and girls. Mrs. Fred Carpenter will have charge of the school. The primary children will be under the direction of Mrs. H. A. Johnston. Mrs. E. F. Welch will have charge of the juniors, and Mrs. C. P. Yates will direct the intermediates. Bro. Harrell will direct a class for boys in Carpentry and Knot Tying.

Boys and girls 4 through 14 are urged to attend. The school will only run one week.

Mr. and Mrs. B. H. Gardner came near getting their part of the army into one camp last Sunday. Pfc. Edward Gardner of Camp Swift was at home on a furlough and so the parents and Pfc. Edward and his wife went up to Sheppard Field to see Pvt. Robert Gardner and were joined there by their daughter, Miss Kathryn, a clerk in the Quartermaster Department at Camp Howze. Now if the son, Staff Sgt. B. H. Gardner of Ft. Ord., Calif., and the daughter, Miss Dorothy Gardner of an aircraft office in San Antonio, could have been there it would have made up a pretty good "home

Aviation Staff Sgt. Willie Doby, has been at home the past week from somewhere in the Pacific Alaskan area to be with his parents, Mr. and Mrs. J. R. Doby. This young man has had a lot of "cold experiences" up in the ices of the far north. And say, folks, this Staff Sgt. is a model of poise, calmness, confidence, a perfect picture of the flower of this land in arms. He has been in service now three years and 8 months and is being transferred to the Florida area. (Guess he will get hot down there.) Doby wears the silver wings, a long service bar, showing he was in service before Pearl Harbor, that he has been in an Asiatic campaign, in a Pacific Coast campaign, and in one major battle. Beneath this bar of service he wears another badge, that shows good conduct. Why not be proud of a Pied Piper like that? Sgt. Doby could tell us a lot about Dutch Harbor and the little donkeys who tried to play Pearl Harbor on them if he would.... but good soldiers are careful how they talk.

Pvt. Delbert L. Kite, the Marine, dated his letter April 24. He says he has been gone from the States 9 months, and "believe me, it seems like years." He can not tell us on what island, but he says "What I would give for some cold weather." It is now Pfc. Washington Herring the old Hitson boy who is now finally assigned to a company. He tells us that he landed in an engineering company and is now in Ft. Ord, Calif. Herring is getting the Herald too.

Lieutenant J. C. Turner came down from Ft. Sill Saturday night for a Sunday visit with his parents. He had only a week end pass from his duties and returned Sunday nite. The road from Ft. Sill is 180 miles long down to Hamlin and a young Lieutenant would naturally become lonesome so the fortunate young officer has a beautiful young lady friend, Miss Margaret Williams of Walters, Okla., also connected with the Ft. Sill army, who came along to keep him company.

The barbering problem is one hard to solve during these war days. Only about half the force as in normal times and the old boys at home still grow beard. We notice W. C. Moore who is working in a Camp Berkeley shop, comes back home each Friday night and helps R. C. Poore on Saturdays. That helps out in Hamlin to keep the "hair off." Thanks, Mr. Moore.

About Soldiers--Sailors

The Herald starts off this week (Monday) acknowledging the receipt of letters from our boys. And let us say here, boys that your letters are always welcomed, and it does others good to hear from you, for we pass all we can on to the folks we meet and talk with. You see, fellows and girls, the first question one asks or hears when we meet one another is, "How's the boy—how's the girl," and thus we hear from you kids in India, China, Australia, New Guinea, Islands of the Oceans, Alaska, Iceland, South America, and Territories and the States, plus England and North Africa, Iran and Iraq, Egypt, and soon it looks like Italy or Norway, maybe Germany.

— S & S —

Sgt. Charles N. Prater is permitted to tell us in a nice long letter that he is in New Guinea, and his letter was dated April 28. Charles is a sample of fine morale builder, his letter rings with determination, that he and others have a history-making job to do, and somebody must bear a lot of hardships. He says "For the past nine months I have not had a day off, but I don't complain, for when you are busy, time passes faster.... I would like to tell you all about this place but you know how the censors are, they will not let but a little get through, but will say we went into a native village today and bought some bananas and coconuts, so you see we are able to get fresh fruits.... Mother sends me the Herald and I have been receiving most of the copies. It is usually a little old but it is still new to us. I read it all over and not one little article gets past my attention.".....

Seaman First Class, R. C. (Buster) Garrett, son of Mr. and Mrs. K. Garrett, arrived home on Monday May 17th from the Norfolk Naval Hospital, where he had spent several weeks, following five months of service in the Caribbean area on convoy duty. He had made 22 convoy trips and finally his ship was struck and many lost their lives. Garrett suffered a fractured ankle and other injuries. He has a 30 days leave and maybe will not have to go back in service. Garrett says his ship was not lost and got credit for two subs.

Captain Thad E. Harden Jr. came in Sunday from Camp McCoy, Wisconsin, for a week with home folks in Hamlin. Captain Harden will now go to Leavenworth, Kan., where he will take an advanced course in the Command and General Staff school. He has made rapid progress since becoming an active officer in the army.

— S & S —

Pvt. George Brown came in last Saturday from Camp Howze, near Gainesville, for nearly a week at home with his parents, Mr. and Mrs. P. J. Brown of the Neinda community. He is in the Field Artillery.

Well, boys, to keep the "record straight," let us tell you this May Monday, the 24, 1943, in good old Hamlin, the weather is very cool, almost too cold for comfort, but things look beautiful for a most welcome rain has fallen, and indications are that the folks back here are going to have pretty good luck with crops. Folks are mighty busy yesterday, Sunday too, we saw a "farm power wagon" going up the street with five kid boys on it, almost too young for war but able to handle the tractor. The folks who will not fight or work, in this community, are rated mighty low. Might tell you that the boys home on furloughs are getting fewer and fewer. We note that addresses with APO care of New York and San Francisco Postmasters are increasing, and you know what that means. You kids are "really discovering the world" and we can't live long enough for you fellows to tell all that you have seen. Maybe we could not believe it if you did. Not many people are complaining back here, not many can realize yet that we are in war, and most of us can buy anything or everything we can pay for, and let us tell you plenty of money is circulating. So long for this week. Your Ed.

— S & S —

On May 1, Sgt. Louis E. Carter (Buster) wrote his parents, Mr. and Mrs. W. J. Carter from some point in North Africa. Among the several things he said was that he knew it must be May 1, as "yesterday was pay day. We've moved 1200 miles since I last wrote, and we have been pretty busy the past three weeks.... I thought Africa was a desert and jungle. It isn't. I sure saw some pretty country, as pretty as anything in the USA, but I don't like it.... Sundays are always remembered. I go to church every Sunday morning. We sure have a good Chaplain to preach to us.... I am not in the parachute department any more. They had to have a rough and rugged man for Sgt. of the guard, so they picked me for it. All I have to do is ride around in a jeep with a .45 on my hip and keep order.... Since I came over here I have gone from 160 to 176 pounds, the most I have weighed in my life." Now all this is good news from the battle front. But the parents will feel better when they get a letter from the "tough Sgt." since the victory in Tunisia.

Sailorboy Wayne Cotten is going to get the Herald now, maybe after several months somewhere down in the Pacific. He writes his parents that he is feeling dandy, eating and working and rejoicing over the good news from the North African front. Wayne, don't worry about the folks back home. All of us are going along hardly realizing there is a war on, except the mothers and dads with sons "over there."

It's a blessed relief just to putter around fixing up the trailer more efficient-like... and sort of pipe-dreaming where you're going. But will you need a new car? All reports say it will be a long time after Peace before you can hope to get one. Be ready to go—in your present car...and why can't you?

Since rationing began you've probably "saved" more car-mileage than you ever made on your grandest tour. After Victory you'll have those "stored-up" miles to use, especially if you don't allow present restrictions to cause acid-damage. Vicious acids are formed by normal combustion in any engine. When it stops it's an acid trap. It used to get rid of acids fairly well by warming up on long fast runs. But now it often "just sits" with those acids inside, and what can you do?

You can have your engine OIL-PLATED internally to combat acid corrosion... much as outer parts are chromium-plated

to combat water's corrosive effect. All it takes to OIL-PLATE your engine is the change to Conoco Nth motor oil. Patented Nth oil seemingly "magnetizes" OIL-PLATING to metal—much longer than just temporarily.

This steadfast OIL-PLATING, joined direct to inner engine surfaces without all draining down to the crankcase while standing, is your shield against acid. Now when even new parts are scarce—let alone new cars—you'll cast off a big worry for the present and future by having your engine OIL-PLATED. The Junior Literary club had its final meeting in the home of Bettye York Thursday, May 21st, with Zelma Green and Charlene Durham acting as co-hostesses.

The program on music was directed by La Rue Kite. Each member answered roll call with the name of his favorite song. La Rue Kite discussed Colonial Music, after which Bobbie Wilson played the "Minuet." Hortense Phenix told the club "How to Keep 'em Singing in 1943."

The retiring president, Margaret Sellers, installed the following officers, president, Frances Gardner; 1st vice-pres., Bobbie Wilson; 2nd vice-pres., Hortense Phenix; secretary, Bettye York; counselor, Mrs. G. R. Bennett.

So ended the first year of a newly federated club, which has been very successful. It has indeed, achieved its object, "The advancement of civics and self-culture and the study of literature, dramatics, music, art, and social science."

You Can't Depend on Isolated Hydro-Electric Power, Eh, Mr. Goebbels?

Allied bombers this last week hit Herr Goebbels in one of his most vulnerable spots. Bombs—and mines—rained upon two of Hitler's biggest dams, knocking out hydro-electric plants which provided power for much of Nazi-land's wartime industry.

"Rail and Highway Bridges and Power Plants Swept Away and Whole Industrial Centers Wrecked" read the newspaper headline.

Of course, crafty Herr Goebbels wouldn't actually post the sign seen above: "This war industry closed for lack of electric power."

But that, in fact, had already

happened, even before the latest bombing raid on Nazi hydro plants. Power shortages have hampered German factories. With all their other substitutes, the Nazis haven't yet been able to invent an ersatz electricity!

West Texas—and all America—is more fortunate. There's no power shortage here! And we're not dependent on hydro-power... which, as the Germans have learned, is vulnerable to enemy airmen while at the same time constituting a man-made flood menace.

We have more electric power than all the Axis nations combined. And no war industry served by the electric companies under American business management (companies like the West Texas Utilities which are supplying over 90% of this

nation's electricity) has been without ample power for all its needs!

Here in West Texas we have an interconnected system of steam power plants, each independent of the other. Neither bombs nor drouth nor floods in the vicinity of any single plant can "knock out" this system.

Transmission lines are so linked together that power is automatically switched from one region to another in event of mishap. It's the most dependable system the world has ever known.

While Goebbels posts his "Closed" signs, free American men and women—permitted to plan, invent and create in the democratic way—are building the weapons of war which hasten the day of Victory... posting another sort of sign: *Danger, Adolf—Americans at Work!*

Junior Literary Club Closes Successful Year

The Junior Literary club had its final meeting in the home of Bettye York Thursday, May 21st, with Zelma Green and Charlene Durham acting as co-hostesses.

The program on music was directed by La Rue Kite. Each member answered roll call with the name of his favorite song. La Rue Kite discussed Colonial Music, after which Bobbie Wilson played the "Minuet." Hortense Phenix told the club "How to Keep 'em Singing in 1943."

The retiring president, Margaret Sellers, installed the following officers, president, Frances Gardner; 1st vice-pres., Bobbie Wilson; 2nd vice-pres., Hortense Phenix; secretary, Bettye York; counselor, Mrs. G. R. Bennett.

Attending the Commencement exercises and visiting relatives over the week end were: Mr. and Mrs. J. O. Jones of Slaton, Mrs. Tom Nall and son of Slaton and Mr. and Mrs. L. B. Miers and children of Lubbock.

Visiting their mother in McCauley last week end were: Mr. and Mrs. Virgil Stephenson and son of Big Spring and Mr. and Mrs. Roland Stephenson of Tucumcari.

Mr. and Mrs. Melvin Henderson were visiting friends and relatives in this vicinity last week. Melvin was called up for induction into the army but was rejected in final examination in Abilene. The Hendersons left Sunday for Dublin where they will visit for a few days with Mr. and Mrs. S. A. Johnson before returning to Kansas where Melvin is employed with an oil company.

Mr. and Mrs. Lewis Gist and little son left for California last week where Mr. Gist will be employed in defense work in Glendale. Mrs. Gist is the former Ruby Rhoten of McCauley.

Mrs. J. A. Behning of Tulsa, Okla., visited last week in the home of Mr. and Mrs. O. T. Hennington. Also visiting the Henningtons is their daughter, Mrs. Paul Behning, the former Emma Sue Hennington.

Nearly two inches of rain in this vicinity the past week has all but guaranteed a cotton and maize crop, and oh boy, what smiles on the faces of the natives.

The following program at the Commencement exercises last Friday night:

Processional, Mrs. L. E. Rector. Song America by Audience. Solo, Mrs. Willard Maberry. Salutatorian, Bess Darden. Valedictorian, Tom B. Jeffrey. Main Address, Captain Gohnson of Camp Barkeley.

Recessional, Mrs. L. E. Rector. Benediction, Rev. C. E. Dick. Hughie Parker and Louis Earl Madden left for induction center on Wednesday. Best wishes fellows.

Visiting this week in McCauley with relatives and friends is Mrs. W. L. Curry of Cisco and her daughter Mrs. Leo Myers of Kansas. Mrs. Curry will be remembered by old timers as Edna Miers.

The McCauley school closed last Friday for the summer. Some members of the graduating class plan to work in defense plants or enlist in some branch of the armed forces. The younger set of school kiddies think they will be on the receiving end of a goose neck or operating a wiggle tail cultivator. Well it is all life and we do not always do just what we would like to do but after all it's a big world and from what we can find out it takes all kinds of people to make a world and if it takes swinging a cotton hoe or working on a four motored bomber to win the giant struggle in which we are engaged, well the American people will get the job done.

For the first time in many moons there are two vacant rent houses in McCauley. If interested in renting a place to rest your weary bones then see this scribe for further particulars.

Had a three page letter from our good friend Sgt. Jack Perryman who is up in the cold country. Jack did not let us in on any military secrets, in fact, his letter was a lot of fun, but we kinda got a feeling that Jack is giving the Japs a little of that something which isn't sugar coated and possibly on the Island of Attu.

J. D. Young writes us to send the Herald to him at La Concepcion, Republic De Panama. J. D. is working for the Martin Wunderlich Co., general constructors for Pan American Highway and he tells me that they are building a highway to Costa Rica. Glad to hear from you J. D.

O-O-O

COMMENT No. 1. News columnists and editors all seem to have conflicting ideas as to how Japan's top admiral, Isoroku Yamamoto, met his death. Some seem to think he may have committed harakiri and others think he was killed in action. As we were on the McCauley front when the yellow ape died, we have no definite clue as to just how Yamamoto met his death, and furthermore what difference does it make, how, when or where he kicked the bucket—just so he is dead!

We have a hankering notion that the press of the United States gives Hitler and his kind too much publicity. Most every day the picture of Adolph makes the front pages of our leading newspapers. We can imagine that Hitler and his henchmen enjoy seeing their pictures in the U. S. press and just for a suggestion as to the way Americans feel about it, we care only to see the picture of Hitle rand his gang when they are swinging by their necks from a high telephone pole or even from a mesquite tree down in Texas.

One of the American people's weaknesses, is that we are too soft-hearted in time of war. Some folks are even feeling sorry for the poor Germans that were captured in Africa, and lest we forget, remember how women and children in France and Poland and other countries were machine gunned by the Nazis. Shall we forget how countless thousands of Jews have been slaughtered like cattle by the Nazi war machine? Shall we forget how our own American boys, who bombed Tokyo, were lined up and shot down in cold blood? Are we so chicken hearted that we should break down and cry or even fret over Yamamoto as to how he met death? Remember how he wrote a friend that he would dictate the peace in the White House? We in America are too soft-hearted toward the criminal who knows no law except the law of the undreworld and it is high time that we grit our teeth and all get mad at Hitler, Yamamoto, Hirohito and all their kind who seek to dominate the world with the blood of the innocent.

Yes, old yellow Yamamoto, the pride of all Japan is dead and we out here in West Texas don't give a continental darn.

POT SHOTS FROM McCAULEY

BY GEO. DARDEN

Attending the Commencement exercises and visiting relatives over the week end were: Mr. and Mrs. J. O. Jones of Slaton, Mrs. Tom Nall and son of Slaton and Mr. and Mrs. L. B. Miers and children of Lubbock.

Visiting their mother in McCauley last week end were: Mr. and Mrs. Virgil Stephenson and son of Big Spring and Mr. and Mrs. Roland Stephenson of Tucumcari.

Mr. and Mrs. Melvin Henderson were visiting friends and relatives in this vicinity last week. Melvin was called up for induction into the army but was rejected in final examination in Abilene. The Hendersons left Sunday for Dublin where they will visit for a few days with Mr. and Mrs. S. A. Johnson before returning to Kansas where Melvin is employed with an oil company.

Mr. and Mrs. Lewis Gist and little son left for California last week where Mr. Gist will be employed in defense work in Glendale. Mrs. Gist is the former Ruby Rhoten of McCauley.

Mrs. J. A. Behning of Tulsa, Okla., visited last week in the home of Mr. and Mrs. O. T. Hennington. Also visiting the Henningtons is their daughter, Mrs. Paul Behning, the former Emma Sue Hennington.

Nearly two inches of rain in this vicinity the past week has all but guaranteed a cotton and maize crop, and oh boy, what smiles on the faces of the natives.

The following program at the Commencement exercises last Friday night:

Processional, Mrs. L. E. Rector.
Song America by Audience.
Solo, Mrs. Willard Maberry.
Salutatorian, Bess Darden.
Valedictorian, Tom B. Jeffrey.
Main Address, Captain Gohnson of Camp Berkeley.

Recessional, Mrs. L. E. Rector.
Benediction, Rev. C. E. Dick.
Hughie Parker and Louis Earl Madden left for induction center on Wednesday. Best wishes fellows.

Visiting this week in McCauley with relatives and friends is Mrs. W. L. Curry of Cisco and her daughter Mrs. Leo Myers of Kansas. Mrs. Curry will be remembered by old timers as Edna Miers.

The McCauley school closed last Friday for the summer. Some members of the graduating class plan to work in defense plants or enlist in some branch of the armed forces. The younger set of school kiddies think they will be on the receiving end of a goose neck or operating a wiggle tail cultivator. Well it is all life and we do not always do just what we would like to do but after all it's a big world and from what we can find out it takes all kinds of people to make a world and if it takes swinging a cotton hoe or working on a four motored bomber to win the giant struggle in which we are engaged, well the American people will get the job done.

For the first time in many moons there are two vacant rent houses in McCauley. If interested in renting a place to rest your weary bones then see this scribe for further particulars.

Had a three page letter from our good friend Sgt. Jack Perryman who is up in the cold country. Jack did not let us in on any military secrets, in fact, his letter was a lot of fun, but we kinda got a feeling that Jack is giving the Japs a little of that something which isn't sugar coated and possibly on the Island of Attu.

J. D. Young writes us to send the Herald to him at La Concepcion, Republic De Panama. J. D. is working for the Martin Wunderlich Co., general contractors for Pan American Highway and he tells me that they are building a highway to Costa Rica. Glad to hear from you J. D.

O-O-O

COMMENT No. 1. News columnists and editors all seem to have conflicting ideas as to how Japan's top admiral, Isoroku Yamamoto, met his death. Some seem to think he may have committed harakiri and others think he was killed in action. As we were on the McCauley front when the yellow ape died, we have no definite clue as to just how Yamamoto met his death, and furthermore what difference does it make, how, when or where he kicked the bucket—just so he is dead!

We have a hankering notion that the press of the United States gives Hitler and his kind too much publicity. Most every day the picture of Adolph makes the front pages of our leading newspapers. We can imagine that Hitler and his henchmen enjoy seeing their pictures in the U. S. press and just for a suggestion as to the way Americans feel about it, we care only to see the picture of Hitler and his gang when they are swinging by their necks from a high telephone pole or even from a mesquite tree down in Texas.

One of the American people's weaknesses, is that we are too soft-hearted in time of war. Some folks are even feeling sorry for the poor Germans that were captured in Africa, and lest we forget, remember how women and children in France and Poland and other countries were machine gunned by the Nazis. Shall we forget how countless thousands of Jews have been slaughtered like cattle by the Nazi war machine? Shall we forget how our own American boys, who bombed Tokyo, were lined up and shot down in cold blood? Are we so chicken hearted that we should break down and cry or even fret over Yamamoto as to how he met death? Remember how he wrote a friend that he would dictate the peace in the White House? We in America are too soft-hearted toward the criminal who knows no law except the law of the underworld and it is high time that we grit our teeth and all get mad at Hitler, Yamamoto, Hirohito and all their kind who seek to dominate the world with the blood of the innocent.

Yes, old yellow Yamamoto, the pride of all Japan is dead and we out here in West Texas don't give a continental darn.
